**Email Home**

**B**

**Call Home**

# Today's Objectives

## Participants Will:

- Increase knowledge of edtech tools they can use to increase family engagement
- Begin to develop an evaluative mindset around edtech tools
- Walk away with a pilot implementation plan for their classrooms

1

**Identify Your Need**

# Why are we here?

Take the next 3 minutes  
and independently  
brainstorm what your  
biggest challenge is  
around family  
engagement.

# Five Why Protocol

WHY?

↳ WHY?

↳ WHY?

↳ WHY?

↳ WHY?

Real solution is found here

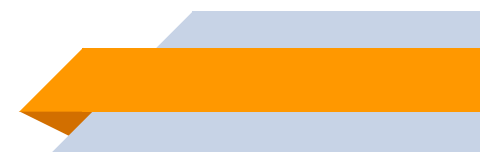

At your table, take turns completing the 5 Whys Protocol sheet to get to the root cause of your challenge. (12 Min)

# Jigsaw Share Out

Identify the **letter** you have on your name tag. Go to the table labeled with that letter. Everyone share out their challenge. (2 Min)

Identify the **number** you have on your name tag. Go to the table labeled with that letter. Everyone share out their challenge. (2 Min)

# Whole Group Share Out

Around the room you see some big picture problems your unique problem of practice may fall into. Put your post-it under the category that best fits your issue.

2

**Explore Products**

# Collaboratively

12:03

# Share Out

3

**Create a Plan**

# Action Plan

STEP 1: Refine your inquiry question

STEP 2: Identify some of the *changes* you hope to see in...

STEP 3: Identify information sources that can tell you if change has occurred for the student population using the product

STEP 4: Put It All Together

# Action Plan

## **Additional Implementation/Pilot Resources**

- **Ed Tech Pilot Checklist**
- **Product Considerations**
- **Tips for Integrating EdTech in your Classroom**

# What We Accomplished

## Participants:

- Increased knowledge of edtech tools they can use to increase family engagement
- Began to develop an evaluative mindset around edtech tools
- Walked away with a pilot implementation plan for their classrooms

# Debrief

# Housekeeping/Feedback

Please take a moment to fill out the feedback form for today's PD. We are striving to make our workshops as helpful to you as possible so please don't hold back!

“ Every once in awhile, a new technology, an old problem, and a big idea turn into an innovation. - Dean Kamen
